

ServiceRocket Reporting Integration

You need to have installed [ServiceRocket's Reporting](#) version 6.0 or newer. For further documentation, please see [ServiceRocket's Reporting documentation](#).

You can use [Reporting](#) for more sophisticated reports. The [workflow-reporter](#) is an optimized reporter that lets you filter entries by space, states, and other index values.

The [Workflow Supplier](#) provides workflow-related information to Reporting.

Example

The following report will show all the pages on state *For Review*, when the page was last published, the existing labels, and the first task (if any).

```
{report-table}
{workflow-reporter:spaces=AWP|states=For Review}
{workflow-reporter}
{report-column:title=Page}{report-info:content:title|link=true}{report-column}
{report-column:title=State}{report-info:workflow:state>name}{report-column}
{report-column:title=Last published}{report-info:states>Published> last >date > dd/MMM/yyyy}{report-column}
{report-column:title=Last Updated By}{report-info:content:modifier>full name|link=true}{report-column}
{report-column:title=Updated}{report-info:content:modification date > dd/MMM/yyyy}{report-column}
{report-column:title=Tasks?}{report-on:workflow:tasks|separator=comma}{report-info:name}{report-on}{report-
column}
{report-column:title=Labels}{report-info:labels}{report-column}
{report-table}
```

Page	State	Last published	Last Updated By	Updated	Visible?	Tasks?	Labels
Page Activity	For review	05/Apr/2010	Roberto Dominguez	28/Apr/2010	Page Activity		
workflow-reporter macro	For review		Roberto Dominguez	28/Apr/2010	workflow-reporter macro		
workflowreport macro	For review	04/Mar/2010	Roberto Dominguez	27/Apr/2010	workflowreport macro		
Misc Macros	For review	04/Mar/2010	Roberto Dominguez	27/Apr/2010	Misc Macros		approvechildren
Value Reference	For review	04/Mar/2010	Roberto Dominguez	27/Apr/2010	Value Reference	Document Workflow Supplier	approvechildren

Other Examples

Pages in the *For Review* state for more than two weeks

Uses the [date-filter](#).

```
{report-table}
{workflow-reporter:spaces=AWP|states=For Review}
{date-filter:workflow:state>date|maxValue=-2w}
{workflow-reporter}
{report-column:title=Page}{report-info:content:title|link=true}{report-column}
{report-column:title=Last published}{report-info:states>Published>date > dd/MMM/yyyy}{report-column}
{report-column:title=Send for review on}{report-info:workflow:state>date>dd/MMM/yyyy}{report-column}
{report-column:title=Last Updated}{report-info:content:modification date > dd/MMM/yyyy}{report-column}
{report-column:title=Last Updated By}{report-info:content:modifier>full name|link=true}{report-column}
{report-column:title=Tasks?}{report-info:workflow:tasks > 1 > name}{report-column}
{report-column:title=Labels}{report-info:labels}{report-column}

{report-empty}
There are no pending pages
{report-empty}
{report-table}
```

Page	Last published	Send for review on	Last Updated	Last Updated By	Tasks?	Labels
Misc Macros	04/Mar/2010	27/Apr/2010	28/Apr/2010	Roberto Dominguez		approvechildren
workflowreport macro	04/Mar/2010	27/Apr/2010	27/Apr/2010	Roberto Dominguez		
Value Reference	04/Mar/2010	27/Apr/2010	27/Apr/2010	Roberto Dominguez	Document Workflow Supplier	approvechildren

Reporting on pending tasks on a page

Use the [local-reporter](#) to report on the current page's tasks:

```
{report-table}
{local-reporter:workflow:state>tasks}
{local-reporter}
{report-column:title=Name}{report-info:name}{report-column}
{report-column:title=Created by}{report-info:user>full name|link=true}{report-column}
{report-column:title=Assigned to}{report-info:assignee>full name|link=true}{report-column}
{report-column:title=Comment}{report-info:comment}{report-column}
{report-empty}There are no tasks in this page{report-empty}
{report-table}
```

Name	Created by	Assigned to	Comment
Create mockups	Roberto Dominguez	Noah Vaughn	
Review use cases	Roberto Dominguez	Stuart Green	

 The task comment is not available because of [AWP-461](#). Will be fixed soon.

See [Workflow Supplier](#) to see what other listed workflow content you can report.
