

Workflow Reports

Overview

Comala Workflows app provides a range of default reports at the page, space, profile and global level.

For **Confluence 2.10 and later**, the audit report uses the native [Confluence Audit Log](#).

Reports

- [Activity Report - Content](#) — Page-level audit log of workflow and content interactions
- [Audit Logs - Space and Global](#) — DEPRECATED Track important workflow interactions at space and global level
- [Comala Workflow Tasks - Profile](#) — A list of all your workflow tasks
- [My Comala Workflow Tasks - Dashboard](#) — A summary of your workflow tasks
- [Tasks Report - Space Tools](#) — Lists workflow tasks
- [Workflow - Space Sidebar](#)
