

Comalatech Workflows Exchange

Welcome to the Comalatech Workflows Exchange

Here you can find cool and ready-to-use workflows that you can import to your Data Center or Server instance using [Comala Document Management for Confluence](#).

- [Content Review Workflow](#)
- [Simple approval workflow](#)
- [Editor and staff approval workflow](#)
- [FAQ Creation Workflow](#)
- [Sample Document Management workflow](#)
- [Technical Documentation Workflow](#)
- [Lightweight Requirements Management workflow](#)
- [Remote Publishing Workflow](#)
- [Simple approval workflow \(3.1\)](#)
- [Content Review Workflow \(3.1\)](#)
- [Editor and staff approval workflow \(3.1\)](#)
- [Simple Space Publishing Workflow](#)
- [Scroll Versions documentation workflow](#)
- [Quality Management System Workflow](#)
- [Content Expiry Workflow](#)

 Comalatech workflows can be imported

- as a **global workflow template** by a global administrator using the [global workflow Import option](#) in the app global administration
- as a **space workflow template** by a space administrator using the [space workflow Import option](#) in space tools

The administrator must also be added as a member of the Comala Document Management [importers groups](#) in global administration.

 Some of these Comalatech workflows may be specific to different versions of [Comala Document Management](#).
